GRINDLE'S
ANCIENT AND CELEBRATED

JAPANESE LIFE PILLS.

NATURE'S OWN REMEDY.

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion the many adulterated and life destroying drugs made into pills and liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have studied hard to find a cathartic which, while it purged, would *throw out disease*, and not *mere secretions alone*; would *renovate and strengthen* and not *depiete and weaken the system*.

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out disease and not mere secretions, thoroughly purifying the blood, and immediately strengthening the system—has been found. They will not only relieve, but *positively cure* every Disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients, that composed the Pills in that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing. The number of these PILLS being used by families alone for their various complaints, constitutes in itself an immense trade. They are not the "*famous pills*" so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female old or young, and cure by acting directly on disease.

The PILLS are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be included in money or stamps. We are responsible for all moneys sent us by mail.

J. S. INGRAHAM and B. F. BRADBURY & CO., agents for Bangor.

For sale by respectable druggists and dealers in medicine throughout the United States, Canadas, Mexico, South America, &c., at 27 cents box, or five boxes for $1.

JOSIAH S. GRINDLE, New York, Sole Proprietor, to whom all letters must be addressed. Also, Proprietor of *Dr. Wesley Grindle's Magic Compound*, the great remedy for PULMONARY CONSUMPTION.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture, and sell the Chemical Paper, in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.
For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S,

Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) of 25 years' Medical Practice, &c.

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line, for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expense incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose [illegible] through recommendation, resulting in certain sale to many.

Dr. CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by mail, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 168 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 10. d&wly.

Chilson's New Cone Furnace.

PATENTED IN
America, England and France.

THE thorough and highly satisfactory trial of a large number of [illegible]

CONE FURNACES,

in use during the last cold winter, has proved it an invaluable invention, which far surpasses all plans before known for the purpose of heating. The manner of holding, or keeping back the smoke and gases in a chamber of cones (or tapering radiators) next the fire, into which the formerly wasted products of combustion are returned and completely consumed. The consequent *unparalleled economy of fuel, and great heating power*, combined with simplicity and ease of management, and its solidity, *strength and durability*, is working a complete revolution in the science of house-warming, despite the immense efforts made by persons whose pecuniary interests are being affected by its general use. We are satisfied that all who can see or obtain correct information concerning the *Cone Furnace* will not fail to use any other apparatus.

This Furnace has received the highest commendations from all; and especially from several of the great scientific [illegible], and has received the First Premium, and the only gold medal ever awarded a Furnace in this State, at the last Fair of the Massachusetts Mechanical Association held in Boston. We have, as usual, a full assortment of the [illegible] well known *True Portable Furnaces*, also *Tricot Stoves*, Cooking Ranges, Mantels, Grates, Registers, Ventilators, &c., and continue to give personal attention to erecting Furnaces, Ranges, and the ventilation of buildings in every part of the country.

The Bogus Convention of Kansas is get ing on bravely. It has already adopted ultra pro-slavery provisions for the new constitution—*prohibiting* the Legislature from passing laws for emancipation. The idea of submitting the Constitution to the people is spoiled, by the members of the Convention—who go in almost unanimously for establishing what they call the constitutional right to hold slaves, under the Dred Scott decision,—without any reference whatever to the will of the people. They say, (and rest on the Dred Scott decision for authority) that the right to hold property is above and independent of any popular sanction—that slaves are property, and that according to the decision of the Court, anybody has a right to hold slaves *anywhere* within the bounds of the American Republic.

To show this we extract a paragraph from the debates:

Mr. Jenkins spoke. He, too, took the ground that the decision of the Dred Scott case settled the slavery question. Men could take their slaves anywhere—could *sell them anywhere.*—That was the true spirit and meaning of it, and it would soon receive its practical force. It was therefore the Black Republicans had howled over that decision. Two members of that Court were Black Republicans, and of course, decided against the others. But the majority of the Court were good National Democrats, and *therefore* decided as they did. Jenkins spoke disparagingly of Squatter Sovereignty. He had always thought it a humbug.

And Jenkins's views met the enthusiastic concurrence of the Convention. The result was the following preamble and sections upon slavery, adopted with only two dissenting votes. There is no doubt the whole instrument will be sent to Congress for approval, and without any reference to the people of Kansas:

PREAMBLE. The right of property is before and higher than any Constitutional sanction, and the right of the owner of a slave to such slave and its increase is the same and as inviolable as the right to any property whatever.

SECTION 1. The Legislature shall have no power to pass laws for the emancipation of slaves without the consent of their owners, or without paying their owners, previous to their emancipation, a full equivalent in money for the slaves so emancipated. They shall have no power to prevent emigrants to this State from bringing with them such persons as are deemed slaves by the laws of any one of the United States or Territories, so long as any person of the same age or description shall be continued in Slavery by the laws of this State; provided that such person or slave be the bona fide property of such emigrant; and provided also that laws may be passed to prohibit the introduction into this State of slaves who have committed high crimes in other States or Territories. They shall have power to pass laws to permit the owners of slaves to emancipate them, saving the rights of creditors, and preventing them from becoming a public charge. They shall have power [*to prevent slaves from being brought into this State as merchandize, and also] to oblige the owners of slaves to treat them with humanity, to provide for them necessary food and clothing, to abstain from all injuries to them extending to life or limb; and, in case of their neglect or refusal to comply with the direction of such laws, to have such slave or slaves sold for the benefit of the owner or owners.

SEC. 2. In the prosecution of slaves for crimes of higher grade than petit larceny, the Legislature shall have no power to deprive them of an impartial trial by a petit jury.

SEC. 3. Any person who shall maliciously dismember or deprive a slave of life shall suffer such punishment as would be inflicted in case the like offence had been committed on a free white person, and on like proof, except in case of insurrection of such slave.

*This was stricken out on Bragg's amendment.

A Lecompton letter of Oct. 21st has the following in regard to the intentions of the pro-slavery men:

Some of the pro-slavery men threaten that the men who would have been elected if they had succeeded with their fraudulent returns, will assemble as a Legislature and act on the cases of the Free State members, turning them out. They are moving to carry the Leavenworth and Atchison members with them.—Whether the Constitution is submitted or not, there will be an election for State officers under the Lecompton Constitution in December, or early in January at the farthest. A committee of five was appointed by the Convention to arrange the districts and make an apportionment for representation for and to superintend such election. The committee is Messrs. Jenkins, Henderson, Hamilton, Boling and Reid, ultra Pro-Slavery.

THE NEW YORK HOTEL SCANDAL.—The case of Mrs. Woodman, who was confined in a lunatic asylum by order of her husband, has been settled by the arrival of her brother, who has taken her in charge, with the consent of all parties.

Furniss, the scoundrel who first induced her to violate her marriage vows, and then persecuted her for years with demands for money and valuables, on penalty of exposing her to her husband, is now an applicant to Mr. Buchanan for a foreign appointment, and has prosecuted some of the New York papers for libel, in publishing Mrs. Woodman's affidavit setting forth his villainous conduct.

The husband of the lady, Mr. Oliver Otis Woodman, served his time in the Apothecary business with Franklin Scammon, in Hallowell. He then went to Philadelphia and finally out West, where he has been doing a large business, and has finally settled down, we think, at New Orleans, and is said to be worth $160,000 or $200,000.

Mr. Samuel Bowles, late of the Boston Traveller (quarto form,) has assumed his old position in the office of the Springfield Republican.

THE SHIPBUILDERS' BANK.—Considerable inquiry is made as to when a report may be expected from the Receivers of the Shipbuilders' Bank. It is now nearly three years since the affairs of that bank were placed in the hands of Messrs. A. W. Kennedy, Atwood Levensaler and Joseph Hewitt, as Receivers. The law of 1855 requires that the Receivers shall report to the Supreme Court the amount and value of the assets in their hands belonging to the bank; and when the claims shall have been ascertained, the Court shall order an application of the assets to the payment thereof. The Bank Commissioners of 1856 stated in their annual report that the dividend which might be realized from the assets of the Shipbuilders' Bank would be very small,—and this we believe is all the information that the public has yet received on the subject. We have heard of no report being made by the Receivers, to the Court. When the Commissioners examined into the affairs of the bank last year, the Receivers had some valuable assets in their hands. They had then realized $4,068 from them, as the Commissioners reported.

It is not expected that any considerable dividend will ever be received from the assets, and perhaps not from any other source. But the stockholders were and are still individually liable—and there may be something obtained in that way. The law of 1855 provides that if it shall appear to the Court from the report of the Receivers that the assets are insufficient to pay the claims against the Bank, then the Receivers shall forthwith file a bill in equity in their own names, against the persons who were stockholders—and upon the hearing, the Court shall determine and assess the amount which the stockholders shall pay. And a lien was established by the law upon all real estate of the stockholders, to meet the claims against the bank. This law was passed after the appointment of the Receivers of the Shipbuilders' Bank—but it was made applicable to all cases where Receivers had previously been appointed—and the law was in fact passed with a special eye to this case.

The Bank Commissioners of last year said in their report that the principal reliance for any remuneration to the creditors of the bank would be in the proceedings against the stockholders. It seems, then, that the proper measures for realizing whatever can be realized from this source should be taken at once. At all events, if there are questions of law not yet decided, in regard to any of the claims or assets, it is but just that the creditors should know what are the probabilities of their receiving anything—what is the standing and condition of the stockholders, &c. After three years it is quite time that a report should be had by the Court, if one had not been made.

Yesterday's Whig contained the portrait of a Black Republican female in full bloom!—*Union.*

Not so. She is a Native American—of one of the tribes which vote the democratic ticket out west.

The Union is hypocritical. We spoke of Ohio as a democratic State, only so far as its Legislature is concerned. That was chosen against the voice of a majority of the people, by means of a democratic gerrymander enacted six years ago.

"An alarming spectacle," says the New York Times, is to see a sturdy fellow, with a cigar in his mouth which cost as much as a loaf of bread, following a band of music and carrying a banner with the inscription, "Bread or Work."

The American Mayoralty Convention of New York city, held on Monday, nominated James E. Cooley, in opposition to Mayor Wood. The Republican Convention held the same day, made no nomination.

It is now reported that Cross (dem.) is elected Governor of Wisconsin.

For the Whig & Courier.

The Old Lawyers Again.

Mr. Editor:—I wish to add a word or two in regard to some of the lawyers whose names were mentioned in the article in your paper yesterday, entitled "The Old Lawyers of Norombega."

George T. Chapman practised in Bucksport for a year or two, and then qualified himself for the ministry. He afterwards took orders as an Episcopal clergyman, and I believe is living, and of some note in the church. John Pike was settled in Frankfort. He was the brother of Daniel Pike formerly of this city. Thomas E. Hale was settled in Castine, and died there. Sam'l K. Whitney went into one of the southern States where he died. Jacob McGaw Esq. was the first County Attorney of Penobscot. He had a very large practice in Hancock and Penobscot counties, and with Mr. Wilson of Belfast, for twenty years was engaged in the principal cases at the Washington Bar.

The statement that Mr. McGaw intends to remove to Missouri is a mistake; and our citizens will be glad to learn that he expects to spend the remainder of his days amongst them.

LIFE IN NEW YORK.—We cut the following from the Tribune's "calendar of crime" for Saturday and Sunday,—occupying about a page in the paper.

THE CHAIN GANG.—Late on Saturday night a young woman 19 years of age, named Catherine Chambers gave herself into the hands of an officer of the Fourteenth Precinct, and was taken to the Station-House. On her way thither she informed the officer, that she was one of the girls calling themselves "The Chain Gang." She said that the object of the gang was to throw vitriol on obnoxious persons, occasionally stab a person by way of amusement, and commit other outrages. She told the officer that a short time since she killed a child of hers by stuffing cotton in its nostrils. "The Chain Gang" held nightly meetings, and were consulted by various persons who desired them to act for them. She said that she lived in Cow Bay, Five Points, where the gang met. An officer was despatched to hunt the place and ascertain if there was any truth in the statement of the girl. Catherine was locked up by Justice Brennan.

THE ANNUAL THANKSGIVING CONTRIBUTION, in our churches, for the benefit of the poor takes place next Sabbath. We invite attention to an article in our paper, on this subject, from Rev. Mr. Maltby. We trust our citizens will give the matter full and thoughtful consideration, as he recommends.

The times are hard, and money is hard to get—but such are precisely the times when charity makes her strongest appeals—for if money is scarce with the man of property, employment is still more difficult to obtain by the poor.

Let us all remember that the noblest charity—the truest benevolence—is *that which gives from a scanty purse.* Out of abundance we may give, and not feel it. This is well. But if we give at a time when we are ourselves straightened, that is the most exalted alms-giving, and will return upon us the richest blessing.

Let the contribution on next Sabbath be the largest ever received in Bangor, on a similar occasion. Truly, the necessities of the poor this winter will require it.

A CRASH AT AN IRON FOUNDRY.—On Tuesday night, about 1 o'clock, the boiler and pattern shop attached to the Foundry and Machine Shop of Messrs. Hinckley & Egery at Drummond's Mills in this city, fell, with a tremendous crash — completely demolishing the building. It has been considered rather unsafe for some time, and preparations were making to strengthen it. The recent rains probably loosened the foundation and the weight of iron in the building caused it to slide off the posts toward and partly into the stream, and broke it into a mere mass of ruins. Had the crash occurred in the day-time, several lives would probably have been lost—as men were constantly going in and out of the building, and several had been at work in it. The foreman of the pattern department came down about 6 o'clock Tuesday evening, to get out some finished iron work, fearing the building might fall during the night—but it was even then cracking so much that he did not venture in.

The damage is not great, as the building was of little value. There were not many patterns in the shop at the time. Some finished iron work which was in the building has been taken out uninjured. Workmen were yesterday engaged in clearing away the ruins.

Since writing the above, we learn that the damage—including the destruction of building and injury to patterns, machinery, &c.,—will probably amount to $2000 or $2500.

FOLD BROKEN OPEN BY BURGLARS—A SAFE BLOWN UP. On Tuesday night the store of Messrs. Atwood & Nickerson, on Exchange street, was entered by burglars, at one of the cellar windows in the rear, and the iron safe in the office blown open with gun-powder. It is one of the old-fashioned Wilder safes, of small size, having a lock which would hold probably a pound of powder. The lock was undoubtedly filled with powder—the key-hole affording ample facilities for doing it. From marks on the floor, the powder was obviously ignited by means of a fuse running about fifteen feet to the office door. The explosion shattered the lock and the door of the safe, and broke several of the windows in the room.

The rogues did not get paid for the operation, however. All the money contained in the safe was about $20—in Rhode Island bills, which would hardly pay for the powder if purchased here. All the current money had been taken out the evening previous by the clerk, and handed to one of the proprietors who was going to Bucksport in the morning to make a purchase.

We do not learn that any actual discovery of the perpetrator of this villainy has yet been made—although it is known that twenty feet of fuse was purchased at a store in the city on Saturday, by a boy, who said he wanted it for his father.

CUNNINGHAM ARRESTED. Isaac Cunningham, who is charged with setting fire to the post office, and breaking open stores at Frankfort Mills, as related in our paper last week, was arrested yesterday, by officers Emerson and Bicknell, about two miles from this city, up river. He was taken to Frankfort for examination.

On Monday night the boot and shoe shop of Mr. Lewis, corner of State and Essex Streets, was entered by means of a ladder, and a pair of boots stolen.

SCHOONER SUNK BY RUNNING UPON A LOG.—On the 4th inst., sch. Ella May, Capt. Mills, of Rockland, ran upon a drifting log, about six miles from Cross Island, and sunk in half an hour. Captain and crew escaped in an open boat, and arrived safely at Machiasport.

LAUNCH.—We learn from the Republican that Messrs. S. W. Pope & Co., of East Machias, launched a fine schooner of 200 tons on the 3d inst. She is to be commanded by Capt. H. W. Norton, and will take a cargo of lumber to Cienfuegos Cuba.

We are indebted to Mr. O. R. Patch for late Boston papers. Also to Bryant's Express for similar favors in advance of the mail.

LAST TRIP FOR THE SEASON.—The Daniel Webster will make her last trip to Portland for this season, on Monday, Nov. 23d.

A market building has been erected on Milk St.; Portland, for the accommodation of country wagons.

THE ATTEMPTED MURDER OF A CLERGYMAN. In the Saco Democrat we find some particulars of the murderous assault upon Rev. Wm. P. Merrill of Biddeford, on Thursday evening last. It was very dark at the time, and Mr. Merrill is uncertain as to how many persons were engaged in the assault. There is no doubt murder was intended, as he knocked down, and then stabbed. One stab was in the region of the heart, but was stopped by a rib; another was upon the abdomen, but struck aslant, so that it did not penetrate the cavity. On the Monday previous, Mr. M. received an anonymous letter, warning him to leave the town in three days, or evil would befal him; and a letter in the same words, and in the same handwriting, was also received at the same time by another clergyman in the city. Two men were arrested at Great Falls, N. H. on Monday, and taken to Biddeford, who are charged with having committed the assault.

The Ellsworth American says that Rev. James Gilpatrick has returned to Hancock county, after an absence of three years in Kansas.

Recently, at Parker's Head, on the Kennebec, about a dozen shameless villains, belonging to that place, went to the school house in the adjoining district, where an evening school was in session, broke the glass in one of the windows, and fled. A correspondent of the Bath Tribune thinks that they had been in the "devil's work-shop," and bewildered their brains with something stronger than water.

A COMPLIMENT TO MAINE.—Mr. J. F. Foster, of Mass., in closing a business letter to us, says:—"I travelled through Cumberland, Oxford and Kennebec counties, and was much pleased with the great variety of lands. I have travelled in several of the Western States and Territories, even to the very gates of the Rocky Mountains, and do not think that any who own good farms in Maine would better themselves by going out west. I saw many fine farms that were offered at an exceedingly low price. The wood on some farms offered for $2000, would be worth here, $3000, and the land otherwise would be worth that amount here."—*St. Croix Herald.*

AUCTION SALE OF A CARGO OF FRUIT AND WINES.—The Argus say that Messrs. Rilynas & Co., will sell at auction to-day, the cargo of fruit and wines recently imported in the brig Volunteer.

INFANT FOUND.—The body of an infant was found yesterday, in a house at North End, occupied by Joseph Clark. The body was found in a tub of water under the chamber floor.—The tub was partly filled with water. An investigation will probably take place to-day, before Coroner Sherman.—*Eastport Sentinel, 6th inst.*

The jewelry and fancy goods store of Mr. John S. Rogers, No. 695 Washington St., Boston, and the millinary store of Holmes Nash, were plundered of $3000 worth of goods between Saturday night and Monday morning.

HORNBY, (Back Settlement,) November 11, 1857.

Messrs. Wheeler & Lynde:—In my first communication, I made a few suggestions in opposition to the banks, and in aid of my able and venerable friend, the editor of the Union.

With your permission, I propose now to give a few specific reasons why I oppose them.

I am opposed to the banks because they infate the mails, and I have not yet received your paper containing my first letter. The irregularity of the mails has long been complained of by the dimocrats of Hornby.

I oppose the banks because they serve to inflate one man above, and contract another beneath the dimocratic platform.

The true dimocratic principles, as expounded by the great apostles of dimocracy, including the great Marcellus himself, declares that all men are grass, and are to feed on nothing else.

I oppose banks because, being a farmer, they serve to inflate wages to a pint that I am unable to pay. I am obliged to pay from one to two dollars per day in haying time, and from twenty to thirty dollars per month, the year round; whereas, if we had no banks, I could procure my help at from ten to seventeen cents per day, and from three to four dollars per month. Thus they injure enormously the laboring class of community.

I am opposed to banks, because they serve to inflate the prices of all agricultural products, by *expanding sharpers* from Boston and other places, who *contract* up all eatables in and around Hornby, much to the injury of the dimocracy of this settlement, thereby compelling us to root hog or die.

I am opposed to banks, because they inflate honest dimocrats into mechanics, and merchants, and shipbuilders and shipowners, whereas true dimocracy requires that they should all feed on pottage.

I oppose banks, because if common report among the dimocrats of this settlement be true, they have served to inflate the venerable editor of the Union into being, and he, like the serpent, stings the hand that warmed him into existence.

I oppose banks, because they serve to inflate one man up, and another down, a procedure diametrically opposed to dimocratic usage from time immemorial, as the venerable editor well knows.

I could go on stating my reasons for opposing these monsters to an indefinite length, but do not dare to delay sending this, or I fear that my venerable friend will suffer for the want of my aid.

AN OLD DIMOCRAT.

A serious fire occurred on Wednesday morning in Nos. 12, 14 and 15 Tremont Row, Boston,—known as F. A. Jones' dry goods store. The stock of Geo. W. Hayward, daguerreotypist, was destroyed. Charles Whitechurch and William Nichols, dentists, Chas. Hubbard, Jones, White & Co., and Franklin Grant were damaged to a large extent.

The Governor General of Canada travelled from Quebec to Toronto, last week, by a special train on the Grand Trunk Railway, in twelve and a half hours running time. Distance 500 miles.

The bakers of Philadelphia, to the number of 100, have had a meeting to protest against the monster steam bakery soon to be started by an incorporated company, with a capital of $100,000.

For the Whig & Courier.

Blessed is he that Considereth the Poor.

And in proportion as this work becomes more difficult, it becomes also more necessary and more praiseworthy. This, to the thoughtful, is about all that needs to be said as to providing for the needy.

Our Governor's Proclamation for a day of Thanksgiving reminds us of what we have been accustomed to do, and are proposing to do again. Next Sabbath is the day. May I express the hope that the citizens of Bangor will act considerately in the premises. Sure I am, no man at such a time as this, can even hope to open, fill out and balance his account with Duty, without stopping to think. Let Thought do her work *faithfully*,—and Hands will follow with theirs *cheerfully*.

The citizen who furnishes a day's work for his neighbor, and then pays him for it, is a Lycurgan helper. This often rises to the highest style of benefaction. Employment, food, clothing, fuel, personal attentions, money—let these be the currency of our city for the winter, and the mercury will hardly go down to zero. Every day will smile. Comfort will wed Peace, and the family will prosper.

At all events we, in Bangor, will have nothing to do with "Hunger mobs." For first, none of our people will think for a moment of asking alms in that way; and second, we will not give our bounty so inadequately as to allow hunger to pine in any of our streets.

J. MALTBY.

Various Items.

The Savannah Georgian, under the head of "Distinguished Arrivals," chronicles the appearance in that city of George V. Snodgrass, of banjo and Burdell-case notoriety. He is traveling for his health, but is advised to return to Augusta. He is wanted by the sensation papers in New York.

The Chicago Tribune contains the following announcement:—"This paper sent one year for three bushels of wheat or six bushels of oats.

THE NEW VIRGINIA COLONY.—We have the first number of the Credo Crescent, published in Credo, Va., at the settlement founded by Eli Thayer. It is well printed, and is full of encouraging promises and results. From all accounts, the "friendly invasion" seems to be well received in the Old Dominion.

A writer on domestic economy in giving instructions for keeping eggs fresh, says:—"Lay them with the small ends down." He does not specify whether this direction is for the hen or housewife.

The editor of a Western paper thus introduces some verses:—"The poem published this week was composed by an estimated friend, *who has lain in the grave many years for his own amusement.*"

A woman applied to a Fall River trader, the other day, for credit, who, at the same time, stated that she had at that moment *one thousand dollars, in gold,* stored away at home, which she did not wish to break in upon.

A Rhode Island girl, Maria Whipple, who says she went from Rhode Island last May, has been arrested in Boston on a charge of robbing fifteen boarding houses of various articles of female wearing apparel, to the amount of $200.

ATTEMPT TO ROB A MINISTER. The Rev. Mr. Lord, pastor of the Dutch Reformed church in Harlem, was attacked on Wednesday evening in second avenue, near 110th st. New York, by a desperate ruffian, who suddenly sprung upon him and struck him a violent blow, which was quickly followed by another in the face. The reverend gentleman is stalworth, well proportioned and athletic, and the highwayman finding the blows he gave failed to bring his intended victim to the ground, and thinking, no doubt that he was likely to catch a Tartar, took to his heels. But Mr. Lord, not having been rendered *hors du combat*, put after him, and after a chase around two or three blocks, run him into a grocery store, where he secured the fellow, and handed him over to the police.

A MOTHER ATTEMPTING TO DROWN HER CHILD. In the prolific record of crime at New York we have the following:

A German woman, named Speider was arrested for an attempt to drown her boy, a little child of about five years. A woman living in the house with the accused stated that she took the boy, stark naked, and threw him into a large pond of stagnant water near the house. She afterwards plunged him several times under water, thereby nearly strangling him, and cutting his feet and body against the sharp stones on the bottom. The child was finally rescued by the neighbors, and the woman sent to jail.

"PROGRESS" IN THE SOUTHERN CHURCH.—The Holston Conference of the Methodist Church South, at its meeting in Marion, Va. has just rescinded that clause of the Discipline which prohibits "the buying and selling of men, women and children, for the purpose of enslaving them." Of 100 preachers in the conference, only four voted nay, as we learn from the Knoxville Whig. The proposition is to be submitted to all the Southern Conferences, prior to the meeting of the General Conference at Nashville, in May next.

GOVERNMENT PROPERTY TO BE PROTECTED. *Washington,* Monday night. The dispatches on the apprehended violence of the unemployed in the city of New York, were considered in a special Cabinet meeting to-day. Orders have been issued to Gen. Scott to concentrate all necessary and available forces for the protection of the government property. Marines here and at Boston have been ordered to New York.

RESIGNATION OF MR. MASON.—Washington, Nov. 9. (N. Y. Herald Correspondence.) Mr. Mason has sent to the President his resignation as Minister to France, to take effect from the 1st of January next, but he will be requested to remain in service until the arrival of Mr. Slidell, his successor, who will go out early in the spring.

"USING THE WRONG WORD." "Ah," said Monsieur to his friend Sniffle, "my sweetheart has given me de mitten."

"Indeed, how did that happen?"

"Vell, I thought I must go to make her von visit before I leave town; so I step inside side of de room, and dere I behold her beautiful pairson streight out on von lazy—"

"A lounge you mean."

"Ah, yes, von lounge. And den I make von vere polite branch, and—"

"You mean a polite bow."

"Ah, yes, von bough. And den I say I was vera sure she would be rotten, if I did not come to see her before I—"

"You said what?"

"I said she would be rotten if—"

"That's enough; you have put your foot in it, to be sure."

"No sare, I put my foot out of it; for she say she would call her store big brother, and kick me out, begar. I had intenseen to say mortified, but I could not think of de vord, and mortify and rot is all de same as von in my dictionaire."

The *Smart* editor of the Belfast *Free Press* reminds us that a man once made a fortune "by minding his own business," and admonishes us to let the Waldo quarrels alone. We would remind the editor of the Press that just what is wanted of him is to "mind his own business"—the business of *his office as Collector of Belfast.*—*Bath Organ.*

[Brethren should dwell together in harmony.]

ANOTHER HORRID MURDER IN NEW YORK. Last Friday night, an honest old Swiss woman named Theresa, aged nearly sixty years, was attacked in her bed in the cellar of No. 32 Greenwich street, brutally treated, and afterwards murdered, by two fellows known as Moses O'Connel and James Toole.

TO THE DAILY WHIG AND COURIER

Brightening Up.

NEW YORK, 11th.

Money matters continue to improve, and there is a more cheerful feeling in business circles. Some of the importing houses are preparing for a revival of trade, and it is rumored that some of the banks are to resume specie payments at once.

From the Utah Expedition—Three Government Trains burnt by the Mormons.

ST. LOUIS, 11th.

Advices from Fort Laramie of Oct. 22d state that Col. Cooke's dragoons were four miles this side, and had encountered a snow storm five days previously. Col. Johnston when heard from last, was 230 miles beyond Laramie. The snow was seven inches deep, a hundred miles this side. When the express left him his teams, horses and men, were rapidly failing, owing to the slim supply of corn and the entire absence of grass.

News had reached Fort Laramie that the Mormons had burnt three government trains of 75 wagons in the aggregate, near Green river, 20 miles behind Col. Alexander's command which formed the vanguard of the army.

It is rumored that the 5th and 10th regiments of Infantry, and the batteries of Artillery, will take possession of the Mormon village of Bear River, for their winter quarters.

Heavy Rains in New York.

ALBANY, 11th.

The rain storm west of this place has proved very destructive. Several culverts on the Central Railroad are broken. The bridge over the Genesee at Rochester was for a long time considered in danger. All the trains for the west have been delayed. One freight train broke through a culvert at Weedsport, and six cars, loaded with grain, were precipitated into a ditch. No one injured.

The rain is spoken of as the heaviest known for years. The canal breaks overflow the road, and no trains are sent west.

The latest information says that hopes are entertained that the old road between Syracuse and Rochester will be passable to-night, and if it is, a train will leave here at six o'clock P. M.

ELMIRA, N. Y., 11th.

The Erie R. R. bridge over the Susquehanna at this city is nearly gone. The bridges over streams in the vicinity, and the track in various places are washed away. There are no trains running. The water, however, is now falling slowly.

The track immediately adjoining the Elmira bridge has been washed away for about three lengths of rails, and the water is so high in the river as to render the bridge impassable for the trains. The water is now subsiding, and also part of the bridge has been carried away, it is expected in a very short time to be in a fit for the passage of teams.

We learn that a portion of the track near Corning has been washed away, but two have not yet received the particulars.

CHARLESTON, 11th.

The South Carolina Cordage Co's Factory, in this city, was burnt yesterday. Loss about $25,000. Insured in northern offices $12,000.

ST. LOUIS, 10th.

Gov. Izzard of Nebraska arrived here yesterday, en route for his home in Arkansas.—He has forwarded his resignation to Washington.

NEW ORLEANS, Nov. 10.

The cotton market is unsettled and excited; there is, however, but little export demand.

New York Markets.

NEW YORK, Nov. 11.

Flour closing quiet at an advance—Common to strait State 4,85 a 4,95; extra State 5,10 a 5,35; common to good Ohio 5,35 a 5,70; extra Genesee 6,00 a 7,00. Southern quiet and unchanged—mixed to good 5,10 a 6,40; fancy and extra 6,55 a 7,00—Canadian firmer—extra 6,00 a 6,65.

Leather unchanged.

Coffee—Auction sale of Rio showed a decline; Java 15½ a 16.

Molasses—22 a 24 for hhds. and 25 a 26 for ...

Corn firmer with small sales—mixed Western 70, delivered; yellow Southern 80.

Rye—State 40 a 44; Western 43 a 45.

Pork quiet—Mess 19,75; prime 15,25.

Beef unchanged—country mess 9,00 a 10,00; prime 6,00 a 14,00; prime mess 21,00 a 23,00.

Items by Last Night's Mails.

The murder of Eliphalet Berry, at Topsham came about in this manner. Berry was returning home, accompanied by a man named Dudley, when a dispute arose about a bottle of rum. Berry seized it and ran; Dudley pursued, overtook him, and plunged a knife into his heart, causing death in a few moments. Truly an awful result of intemperance.

A pocket-book, containing $15, and notes for $500, was snatched from the hands of Mr. Witt, a jeweller of South Berwick, on Tuesday evening, by a man for whom he was making change. The rogue escaped.

A dispute occurred on Tuesday, between two neighbors in Windham—Wesley Hussey and E bridge Lord—when Hussey struck Lord upon his head with a stake, inflicting a dangerous wound. Hussey was arrested.

The banks of New York are making their arrangements with a view to the resumption of specie payments in February or March.

Bunch raisins are said to be selling in Boston for $3 per box, or eight cents per pound. They were retailed for 25 cents last year.

The difficulties in Dr. Cheever's church in New York have been settled by a report satisfactorily disposing of all the charges against him. They were aimed at his modes and subjects of preaching, and not at his conduct.

Removal.

E. F. PLAISTED, M. D.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to those diseases, under the most eminent German physicians in Philadelphia and his thorough knowledge of the science of Auscultation and Percussion enables him to detect the slightest deviation in those organs from their healthy condition.

His experience and success in the treatment of Lung difficulties, especially, give great confidence in his ability to give most entire satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double coated before packing. The whole contents of the Wheat are transported to Bangor by Railroad in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 40 West Market place, OLD HOLT & SON, Broad Street, HELLIER & BOARDMAN, Hammond-st. GOODWIN & WEBSTER, head of Exchange Street, GEORGE L. CHURCHILL, State street. AREY & HOXIE, Brewer, where it is kept for sale.

Alpine Hair Balm,
—FOR—
Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness Scurf, Dandruff Itching and all diseases of the skin. This Balm gives the scalp a new and healthy action restores the coloring matter to the roots of the hair which passed through the Hair and gives it a natural color without the use of Hair Dye

Hundreds of preparations have been introduced pretending to preserve the Hair and keep it from falling off, composed of Oils Alcohol and other deleterious materials and all to no use. Hair dyes have been introduced that do not give the Hair a natural color besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair the proprietor was induced to experiment on it, he could obtain an article that would be the exact remedy and after seven years trial has perfected this Balm. It is soothing, and emollient allays all irritation of the scalp then it stops [illegible] itching. It cures Dandruff and when the hair has turned gray it will bring it back to its original color. [illegible] It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair and growth will soon appear. Growth does not take place at the end of the Hair as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots that the hair has come out gray, hence it is necessary to keep the fluid to the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin and is of itself a hollow gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out it leaves the hair hollow and it becomes gray. To invent a Balm that would produce this pigment has been the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water proof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself I was led to experiment on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather. At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

CELEBRATED
MAGIC COMPOUND,
—THE GREAT—
Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood

THIS WONDERFUL REMEDY, has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way carrying health and joy to thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy

There is no remedy equal to it in building up a system, that under the influence of various diseases hardships, or exposures has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids and arrest the deposit of tubercle in the lungs and it is as *safe* as it is *certain* in its action

Some poor sufferer full of anxiety and doubt in regard to what we say may ask Can your medicine restore a portion of lung that disease has entirely destroyed leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season but little or no part of the lung is lost. It is necessary only to *arrest* the disease and when this is done the concrete substance deposited in the tissues of the lung, [illegible] becomes absorbed [illegible] calcareous substance which is quite harmless and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation the irritation brings on inflammation of that part of the lung, the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested. Now does your remedy effect a cure? *Most assuredly it does*. As soon as the disease is arrested the hurtful matter is absorbed or expectorated and nature either furnishes the cavity with a lining membrane or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar and the remaining portion of the respiratory apparatus true to a law running through the whole physical economy becomes somewhat enlarged takes on increased action and suitably compensates for that which has been lost
